

Gladius IBM Kiosk

IBM's Partnership with TouchScreen Solutions

TouchScreen Solutions and IBM Australia have partnered to offer high quality, practical and visually appealing kiosk housings incorporating IBM's leading AnyPlaceKiosk technology. Designed and manufactured here in Australia, the housings are customisable even for relatively small runs.

Engineered for long life and continuous availability, AnyPlaceKiosks feature a rugged, durable exterior that has held up under rigorous testing, frequent use, and rough handling in harsh public situations. AnyPlaceKiosks are deployed in thousands of busy public spaces and consistently perform well in high-traffic and demanding environments across a broad range of market segments, including retail, travel, financial, government, healthcare and entertainment.

Benefits of TouchScreen Solutions Kiosks

- Designed and manufactured in Australia
- High quality steel construction for long term usage
- Expert integration of multiple devices
- Customisable designs (for example if you wish to add additional components), even for relatively small runs

Benefits of IBM Components and Support

- Key components supplied and supported by IBM
- Telephone, email and on site support plans direct with IBM
- Fully integrated remote management and monitoring tools, including unique IBM Light-Path Management, help simplify system management.
- On site warranties available for up to 5 years

Introduction to the Gladius

The Gladius is an extremely versatile and visually appealing kiosk solution. Sleek and yet functional, the Gladius is fully customisable and upgradeable and can be produced in your preferred choice of colour. It is a flexible, modern kiosk particularly suitable for retail and exhibition environments and other contemporary interiors.

The Gladius closely represents our earlier popular K200 design, but has had the appearance further enhanced with a slimmer front and an attractive glossy black screen assembly. Like the K200, it can be produced in your preferred choice of colour and branding.

Standard Features:

- Attractive & yet tough steel construction
- 17" IBM AnyPlaceKiosk touch screen and computer
- Logitech Stereo Speakers
- Very small footprint & low 1.3m profile
- Holes in base for bolting down
- Easy access to all components, most of which can be easily removed / replaced by an unskilled person
- Carry handles for easy moving
- Designed & built in Australia
- 3 year warranty (IBM components fully supported directly by IBM)

Options:

- 19" IBM AnyPlaceKiosk
- IBM Receipt Printer
- Impact, vandal & water resistant stainless steel keyboard & trackball or standard keyboard & mouse tray
