

Project Based Kiosk Solutions

Overview:

In addition to our range of standard kiosks, TouchScreen Solutions is able to supply the PK Range of kiosks pictured below. Usually available only for large roll-outs, the PK Range is now available for orders of 10 plus.

These kiosks take advantage of the same robust and reliable infrared touch screen technology that is used in our standard designs giving you confidence of the robust commercial-grade quality whilst offering more variation in design to fit with any decor.

Featuring the latest infrared touch screen technology, with the following benefits:

- High ease of use - accepts input from fingers, gloves, pens etc
- High convenience - one off calibration with no need to recalibrate – ever!
- High screen clarity - no screen overlay causing glare and light diffusion
- High reliability – cannot be easily damaged by scratching, poking or impact
- Multi touch ready!

If a design appeals, or if we can assist further in any way please don't hesitate to contact us.
