

NEC P SERIES

Pure. Professional. Performance.

MULTI-TOUCH DISPLAYS

40" - 70" professional-grade, LED edge-lit displays for the most harsh install environments

High-Quality, Large-Screen Interactive Display for Business and Education Applications

Infrared (IR) Touch Screen System

The touch-screen displays utilise state-of-the-art infrared control. This infrared system delivers better responsiveness compared to other types of touch screen technologies. Up to Ten Point multi-touch capability provides enhanced object control for multiple users on a screen.

Advanced Power Saving Features

LED edge-lit backlighting reduces power consumption and allows a slimmer cabinet depth. NEC LED Displays include a number of power saving features such as power/input scheduling and automatic brightness control for lower cost of ownership.

Full HD Resolutions, Great Picture Quality

The LED touch screens deliver high definition visuals with a wide viewing angle. NEC LED displays offer high brightness, excellent contrast and smooth moving images.

Features and Benefits

- Ten point multi-touch in Windows 7 and 8.
- Available in 40", 46", 55" and 70" size models.
- High brightness and contrast displays.
- 700 cd/m2 maximum brightness.
- Open Pluggable Specification and Interface Expansion slots.
- USB touch-screen connectivity.
- Three year limited warranty.
- LED backlit design
